[GARLAND SJRWP remedial options report 3_10_15 \(1\).pdf](#)

Hi Gary and David,

I will mail hard copies of Dr. Kathleen Garland's assessment of the SJRWP to you both and I hope her report and recommendations will be considered by the NRRB. Her overview of sites similar to the Waste Pits provides excellent insight to EPA's practices across our country.

Attached is an electronic copy of her report and the presentation Dr. Garland used during the event releasing her report. It is extremely important to note the comparative photos on the last few slides.

Thank you,

Jackie Young
